Re: Nubilt Restoration & Construction

To whom it may concern:

I have been in property management for a year and a half and have had the opportunity to work with Issa Ashour and his contractors on several projects. Every experience has been a positive one in that their work is highly professional and impeccable. The entire team of Nubilt is extremely knowledgeable in the construction and restoration fields and I have been able to rely on them to resolve many complicated issues with the properties I manage.

I would highly recommend their services!

Sincerely,

  
Jan Chadwick  
Association Manager
