To Whom It May Concern:

NuBilt Restoration & Construction recently concluded a total renovation of my condominium unit. The project was extensive and involved extra challenges due to the property being located on the tenth floor of a luxury high rise building. My primary NuBilt contact was Issa Ashour, who expertly guided me through the process, including design and construction. From the outset, Issa offered excellent suggestions and worked diligently to keep my costs down by obtaining several bids, i.e., sound system, electrical, etc. Issa and his staff exhibited the utmost courtesy, professionalism and knowledge of all aspects and it was a pleasure to work with them. The final result is outstanding. I have received high compliments, including, "Your place is beautiful and looks like a model show home!" I would recommend NuBilt wholeheartedly to any prospective client.

Respectfully,

Kendall Sansing
