

June 30, 2008

On behalf of The E [REDACTED] family,

I would like to thank Issa, Wayne, Nate and the entire Nubilt Family for all that you did for our home and us. As I have said before we are first time homeowners and this was our first catastrophe. We were in shock to find 5 inches of standing water in our basement. Issa came to our home even though we had another contractor prepared to start working and he explained what needed to be done, what Nubilt would do, and he immediately gained our trust and within less than an hour 5 trucks were out front and a team of people were working. The clean up and repair time flew by with no problems, everyone that came to our home was kind, courteous and professional. We always felt like their top priority. Our Basement looks gorgeous, it looks better then it was before.

Thank You Nubilt again. We appreciate all that you did for us.

*The E* [REDACTED]
